

ENVIRONMENTAL POLICY

County Shutters & Doors are committed to the conservation and improvement of the environment. We acknowledge the impact that our business may potentially have on the environment and work towards minimising and reducing this impact as much as possible. Our aim is to manage our operations in ways that are environmentally sustainable and economically feasible, by:

- Promoting efficient environmental management policies and practices throughout the Company.
- Considering the impact that our organisation's activities may have on the environment and reducing this impact as much as possible.
- Minimising waste production as much as possible, by reusing or recycling packaging.
- Using energy and water in an environmentally responsible way.
- Disposing of paint and chemicals in the proper manner.
- Reducing pollution where possible.
- Minimising the impact of transport on the environment arising from the use of our own vehicles.
- Raising awareness of staff and sub-contractors, of the Company's environmental impact and promoting individual good practice.
